<sup>1</sup>Premiums increase annually based on age, are effective as of 1/1/22 with a semi-annual billing frequency and include a 33% Premium Credit discount that shares favorable financial results with Plan participants. The Premium Credit discount is not guaranteed, but reevaluated periodically. Premiums are based on Attained Age, which is each participant's actual age beginning on the first day of the month following his or her birthday. If Attained Age changes during a billing period, rates are proportionately blended. Waiver of Premium option allows all coverage to continue without premium payment if the insured Member is totally disabled prior to age 60.

<sup>2</sup>Preferred rates are available to the healthiest individuals who have low-risk health and lifestyle characteristics. Your eligibility will be determined through medical underwriting. You must be a non-smoker and have normal blood pressure (without medication) and normal cholesterol, plus meet all other health-related underwriting criteria. You must also have low-risk lifestyle characteristics that include non-hazardous avocations and travel, and a good driving record. If you qualify, Preferred rates will apply for a minimum of 10 years. At any time on or after your 10th anniversary, you may be asked to requalify for another 10 years by providing proof of good health satisfactory to the company. If you choose not to requalify or if your application to requalify is not approved, your coverage will automatically continue at the rate applicable to the Standard risk class. If the applicant does not qualify for Standard or Preferred rates, it may be possible to qualify for one of the two additional substandard rate classes.

<sup>3</sup>Accidental Death option doubles the insured person's death benefit, up to a maximum of \$1,000,000, if death is accidental as defined by the policy.

<sup>4</sup>Beginning at age 65, coverage amounts can no longer be increased, but coverage is renewable until age 81 subject to the terms of the policy. The accidental death option benefit reduces by 50% beginning at age 66.
